To Whom It May Concern:

Our chromebook buying experience with ScholarBuys has been wonderful. Not only do they quickly and efficiently send us our order, but we usually get our quotes back the same day. They are never out of stock when other vendors have kept us waiting. And most importantly, they have the lowest price – Always. We never have to negotiate; I know that the price they give me is the lowest price available.

I would highly recommend ScholarBuys for anyone purchasing chromebooks and chromebook carts. They are the only vendor we use for those purchases.

Sincerely,

Scott Trautwein
